**Wildcats prove anything possible**

This noble institution we attend boasts a student population with origins all across the globe — quite possibly to conceal the fact that the majority of us are standard-issue Texans with necks varying in shades of red.

**PHILIP LEONE**  
SPORTSWRITER

This being the case, most of us through heredity or by gunpoint, congregate into one of two different sects of football worship. The first of these denominations is filled with happy, semi-intelligent folk who cheer on the maroon and white of Texas A&M and the blue and silver of the Dallas Cowboys; the other is saturated with miserable, sadomasochistic souls who prefer the Houston Oilers as their professional supplement to the Aggies.

Unfortunately, our natural pigskin preferences as Texans hinder us at times from fully appreciating the achievements of teams outside our state's borders. For this reason, I feel compelled to educate and enlighten you with the recent successes of the Northwestern Wildcats.

First of all, Northwestern University is located a few miles north of Chicago in Evanston, Ill.

I tell you this because my idiot roommate believed with great conviction that the institution, known for its high academic standards, was located somewhere in North Dakota.

Though you may not have known where it was, you've hopefully had a chance to become vaguely familiar with the Northwestern football team. You've probably seen them on ESPN and on the cover of Sports Illustrated, but do you really know why they deserve the recognition?

Take a look at what they've managed to pull off this season
