Chain Reaction's characters fail to light up big screen

By Jeffrey Cranor
THE BATTALION
Andrew Davis' last blockbuster, *The Fugitive*, left viewers' tails ends sore from non-stop, edge-of-your-seat action. But his newest film, *Chain Reaction*, creates little reaction from audiences at all.
Both films deal with a framed man on the run from a relentless lawman. But the similarities end there.
Tommy Lee Jones emulated a hard-headed but respectable lieutenant in *The Fugitive* and won an Oscar for his performance. Fred Ward, who plays FBI agent Ford in *Chain Reaction*, resembles Mayberry's Barney Fife.
Keanu Reeves is Eddie Kasalivich, the man on the run; but there is no comparison between his character and Harrison Ford's Dr. Richard Kimble.
In *Chain Reaction*, Kasalivich, a University of Chicago graduate student, discovers the final step in making cold fusion more than just a myth. But certain shady folks feel this technology should be kept secret in order to avoid a disastrous effect on the world's economy.
So, they blow up eight Chicago city blocks, including the factory where Kasalivich's team developed the project.
Eddie and his sexy lab partner Lily (Rachel Weisz) find that the

bomb-happy villains are attempting to frame them. They run spite their obvious innocence.
Paul Shannon (Morgan Freeman), who was Kasalivich's mentor, knows Kasalivich did not plant the bomb. He maintains contact with Eddie, just to keep the boy from getting arrested, but also for his own selfish reasons.
Chain Reaction suffers from the most common epidemic among action films, dialogue deficiency syndrome—writing that requires only a fourth-grade comprehension level.
And Reeves, Weisz and Ward hardly help this marginal script with their sub-marginal performances.
Fortunately for moviegoers though, Freeman manages to carry his character well throughout the film, and Davis has created some good quality action sequences.
But nifty explosions and high impact chases have little effect on an audience when they revolve around characters that fail to draw the audience into the action.

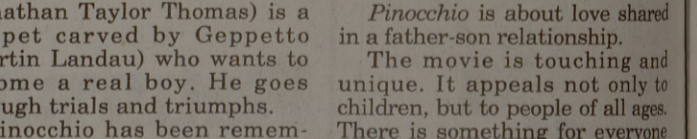

Supercop's Chan (sort of) wins again

By Jeffrey Cranor
THE BATTALION
While American action heroes gear up with the latest weapon technology, from nuclear-powered pistols to rocket-launching dart guns, Hong Kong action star Jackie Chan arms himself with fast-and-furious martial arts and a sense of humor.
In Chan's latest U.S. release, *Supercop*, he plays Hong Kong police detective Kevin Chan whose mission is to infiltrate a drug ring.
Chan and Chinese Chief of Security Yang (Michelle Khan) go undercover as brother and sister aiding one of the cartel's leaders, Panther (Yuen Wah).
Chan fends off the Chinese police while battling the evil drug lords and their henchmen. The action is quick and often comedic, and the stunts are a spectacle in themselves.
The addition of Khan is not the norm for a Chan film. Chan performs solo in most of his films, but Khan works well with Chan's rapid reflexes in combat and wit.
Khan, as Yang, aids Chan's adventure into enemy territory, but bad luck brings Chan's girlfriend May (Maggie Cheung) on the scene.
Following the American success of Chan's *Rumble in the Bronx* earlier this year, *Supercop*, a three-year-old Chan film, was released in the U.S. with dubbed-in English and a new soundtrack. The movie's action, particularly the stunt work, is outstanding, but the script is often caught at a crossroads between comedy and thriller.
Chan's roles usually highlight his own persona. Writers of Chan films do not concern themselves with intricate characterization.
But in *Supercop*, the writers waffle in their intentions toward either serious or animated action and in the process, bury Chan's famous spry countenance and spirit.
May is on vacation in China when she sees her lover, a strange woman, and some unsavory bings at a hotel swimming pool. Chan tries to play her off as a hooker to avoid being discovered.

Pinocchio serves up to all

By April Towery
THE BATTALION
Sex, violence and "adult language" seem to be the common elements found in movies today.
Pinocchio, based on the novel by Carlo Collodi, contains none of these, yet still entertains an audience of all ages.
The movie includes excellent acting, music and set design, cute kids and a heartwarming story about making dreams come true.
Pinocchio (Jonathan Taylor Thomas) is a puppet carved by Geppetto (Martin Landau) who wants to become a real boy. He goes through trials and triumphs.
Pinocchio has been remembered throughout the years as the boy whose nose grows when he tells a lie. However, this aspect of the story is not emphasized in the Disney version.
Thomas and Landau work brilliantly together in this film. Their crystal-blue eyes make it believable that Geppetto is really *Pinocchio's* "papa."
Thomas is adorable and funny, which mixes well with Lan-
dau's seriousness and veteran acting ability.
Thomas proves himself as a young actor in *Pinocchio* by distinguishing between a puppet and a child.
The movie is touching and unique. It appeals not only to children, but to people of all ages. There is something for everyone in *Pinocchio*. Director Steve Barron is able to combine the expectations of each age group.
The scenery in the movie is beautiful. The animation of *Pinocchio's* cricket friend, Pepe, is well-done and mixes well with the live action.
The wholesomeness and fine acting displayed in *Pinocchio* make it a brilliant film for any audience.

Pinocchio is about love shared in a father-son relationship.
