New Jersey sues tobacco industry

TRENTON, N.J. (AP) — New Jersey became the 15th state to sue the tobacco industry for illnesses that cost the state more than a billion dollars in health care.

The suit filed Tuesday charges the tobacco industry violated consumer protection laws with deceptive and misleading advertise-

ments. The state estimates it spends \$1.1 billion annually to treat tobacco-related illnesses.

Eight class-action suits are pending in Alabama, California, Louisiana, Minnesota, New Mexico, New York, Ohio and Pennsylvania, filed by smokers who claim they became hooked while the industry concealed the addictive nature of its product. Fourteen other lawsuits have been filed by states seeking to recover money spent treating illnesses.

The suit seeks unspecified damages and an order directing cigarette manufacturers to turn over its New Jersey profits to the state and to fund anti-smoking programs.

Peggy Carter, spokeswoman for tobacco giant R.J. Reynolds, said New Jersey's 40-cent-a-pack cigarette tax more than pays for "any alleged cost of tobacco.

Water supply will continue to deplete

SAN ANTONIO (AP) - A judge's order restricting the pumping of water from the Edwards Aquifer won't go into effect until an appeal by the city of San Antonio is considered, a federal appeals court has ruled.

The stay was issued Tuesday by the 5th U.S. Circuit Court of Appeals in New Orleans.

U.S. District Judge Lucius Bunton III had ordered the pumping restrictions, effective Oct. 1, for the 175mile-long underground water supply.

Bunton's action came Aug. 23 in response to a Sierra Club lawsuit that sought to protect endangered species living in aquifer-fed springs in New Braunfels and San Marcos.

Drought conditions and resulting increases in pumping have led to reduced spring flow.
