held at A&M three years ago. Metinee Srivatanakul, a plant physiology graduate student, said she looks forward to the

tournament each year.
"I'm really looking forward to the whole day," she said. "We've been waiting for it and prepar-ing for it for about three or four months."

Organizers expected 100 students to attended the game, but that estimate fell short as an estimated 120 flocked to the campus. The sports competition was

one of the event's highlights. The soccer tournament ended in a three-way tie, but the

Small town tries to boost econor

LEFORS, Texas (AP) — Since the oil bust hit a because of disabilities. decade ago, there's not much left in this Texas

A couple of swimming holes keep the few kids still here entertained in the summer and, on Thursdays, the senior citizens' club serves a mean potluck lunch. Watching a good thunderstorm blow across the rolling plains always makes for an entertaining afternoon.

But that's about it. When the oil wells were capped and the workers moved out, Lefors lost two grocery stores, a bowling alley, a bar and one-third of its population. Only about 600 people remain, and enrollment is so low that the local school is in danger of closing.

So, with ingenuity born of desperation, School Superintendent Norman Baxter and Mayor Bob James came up with a plan over coffee one morning: People could write in and, if they were lucky enough, they just might end up with a piece of Lefors — for nothing.

Twelve vacant lots that failed to sell at auction worth roughly \$150 to \$400 apiece — are up for grabs in a drawing Oct. 14. The only requirement is that each winner put a trailer on the lot or begin construction on a house within six months.

Before the deadline passed for entries last month, more than 480 postcards streamed in from as far away as California and Maine.

Baxter and James are crossing their fingers that the gimmick will attract young families, restaurateurs and other wholesome, friendly folk.

"We make no discrimination," James says. "Of course, we'd like people with 18 or 20 kids.' But what Lefors wants and what Lefors gets could be two very different things.

Meet, for example, applicant Becky Bremmer. She lives with her husband in a trailer home south of nearby Amarillo. Both are in their 50s and don't work

'We want to get farther away from or Mrs. Bremmer says. "I want to say no wh ask me to baby-sit.

Then there's Susan Daughety, a Dallas no up with traffic and crowds who doesn't cramped quarters of her trailer home park "Kids play ball here and keep hitting th

and I have to keep yelling at them," she say, feel like I need a lot of other people to get al Not exactly kid-friendly, young families.

If history is destined to repeat itself, inf last thing Lefors will get is the June and

"I wish them well, but it's not going to work. It's doomed to fail."
