The Aggies' reward for a win would be a bowl bid, which could make early season woes a thing of the past. Mackovic said A&M had

problems in the beginning of the season because of its youth and inexperience, but it is still very talented. "Their lack of

experience at this level does make a differ-Mackovic ence," Mackovic

said. "But now I see a really good football team."

Akins said he is planning to face an improved Aggie offense that still counts on the strength of its rushing attack. 'From an offensive standpoint,

.

they're a good group," Akins said. "They have a stable number of running backs. Any time you play A&M, you're going to have to stop the run. They have a good receiver in Al-

bert Connell, and Branndon Stewart is a good quarterback. I think they're better than last year. Fitzgerald said the Wrecking

Crew's defensive front will be a challenge for the Texas offense.

'They're a good solid group (on defense)," Fitzgerald said. 'We know they have a good defensive line, so we might have to change some things up.

With the struggles both teams have encountered this season, one might think the game would be less important to fans. Akins disagrees.

"I don't think it should be," Akins said. "Both teams are gelling right now. In a game of this magnitude, you're going to see the hardest hitting and the strongest running.'
