MOVIE REVIEW

Disney's 101 Dalmatians spotted with imperfections

101 Dalmatians
Starring: Glenn Close, Jeff Daniels and Joely Richardson
Directed by: Stephen Herek
Rated: G
Playing at: Post Oak Mall

Snow-colored dogs with coal-hued spots, horses, pigs and more dogs await audiences in Walt Disney's *101 Dalmatians*. In this live-action remake of the classic Disney cartoon, Glenn Close stars as Cruella De Vil, a woman obsessed with a love for animal furs. Jeff Daniels portrays Roger, a computer-game designer whose games have not seen a successful venture. Roger is an ordinary guy, living the single life with his Dalmatian Pongo.

The film then goes on a comedic tirade involving 101 Dalmatians, some raccoons, a pig here, a horse there, and a myriad of other warm-blooded creatures. But like many live-action remakes, *101 Dalmatians* lacks the spirit of a movie designed to entertain children. There are moments in the film when kids will not understand the adult humor, and the Dalmatian sequences are average entertainment value. Close plays a realistic De Vil, delivering clever sarcastic lines as only a character such as hers has license to. Her makeup and costume add

Glenn Close stars as Cruella DeVil in Walt Disney Pictures' new live-action movie *101 Dalmatians*. One fateful day, Roger befriends a woman by the name of Anita (Joely Richardson). The fact that she also owns a Dalmatian brings the two together, and in true Disney fashion, the two are engaged to be married by the end of their first meeting. Everything seems fine as Anita continues to work for the feared and wicked Cruella De Vil until she discovers the couple's dogs are going to have puppies. With De Vil's desire to have fresh, fashionable clothes made of animal furs, the lives of Anita and Roger's puppies and other Dalmatians become endangered. her character, but unlike the film's promotional ads, she is not seen enough to keep the film above average. Daniels and Richardson are believable as a couple finding love at first sight, but once again, there just is not enough on-screen participation from the two. *101 Dalmatians* is a good attempt at a family film, but the Dalmatians are not as animated as they were in the animated feature. As Disney prepares to release *Hercules* next summer, it should take into account that the movies leading up to the summer blockbusters should also be worth watching. C+
