Once in overtime, the Aggies seemed to run out of gas, as Texas capitalized on one improbable threepointer and made its free throws to pull away for the win.

"(Texas senior guard Al) Coleman hit a ridiculous shot to start the overtime — it was an incredible shot he made," A&M Head Coach Tony Barone said. "I think that shot in itself probably broke our back more than anything else. He was falling out of bounds, right next to (Texas Head Coach Tom) Penders.'

The Longhorns scored 36 points from the free

throw line on 36-of-48 (75 percent) shooting, compared with just 15-of-24 for the Ag-Besides the gies. point differential, several key Aggie players were plagued by foul trouble for much of the game.

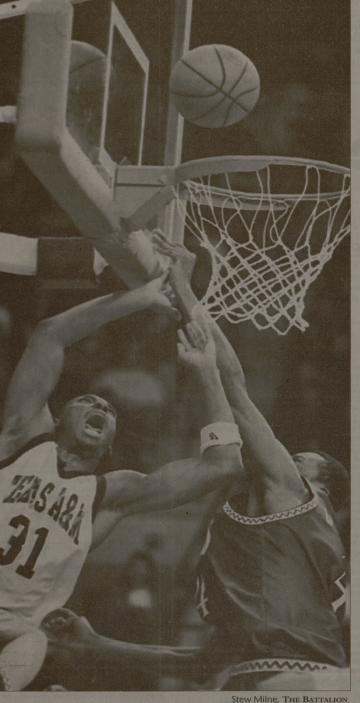

After freshman guard Jerald Brown fouled out with almost 10 minutes to go in the half, the Aggies went

"We were trying to get an isolated to a post up game to take some pressure off the perimeter players.

"We had the guy at the bench subbing for Jerald when he got the fifth foul," Barone said. "Obviously, we didn't want him out of the game. He had given us some threes and shot the ball fairly consistently.

Despite being at less than full strength, A&M still had a shot to win at the end of regulation. The Aggies' inability to get off a good shot or draw a foul hurt them in the long run, though Davis said they were still very much in contention heading into the overtime period.

"I think we were still confident," Davis said. "We thought we were going to beat them in the regular period, but when we went into the overtime, we were in foul trouble, but we still had guys who could come in and play so we weren't really concerned.

A&M freshman forward **Shanne Jones** is rejected by Texas' junior See Aggies, Page 6 forward Sheldon Quarles in the second half at G. Rollie White.

Texas' free throw clinic helps key victory over upstart A&M

By CHRIS FERRELL THE BATTALION

On the same day that classes got under way for the spring semester, the 23rd-ranked University of Texas Longhorns (9-4, 3-1) taught the Texas A&M Men's Basketball Team (6-8, 0-4) a valuable lesson — the art of free throw shooting.

Texas was hot from the foul line connecting on 75 percent (36-of-48) of its free throws, outscoring the Aggies by 21 points from the stripe. The Longhorn's free throw exhibition included 10 of their 14 points in overtime.

Texas' All-American senior guard Reggie Freeman paced the Longhorns by converting 15 of his 17 free throws on his way to a game-high 30 points.

"They shot a lot of free throws," A&M Head Coach Tony Barone said. "I don't know if they were fouls or not. They're a good penetrating team."

Every time the Aggies began to make a run or seemed to be poised to take over the game, Texas was able to get to the foul line and reestablish themselves.

"Our effort was real good to put them in that situation and then go up," said sophomore forward Calvin Davis, who lead the Aggies with 10 rebounds. "It hurt our team a lot with all the little fouls that got us in trouble.

During a three-minute stretch in the first half the Aggies fell victim to a Longhorn 10-0 run, with six of Texas's points coming from the line. The stretch ended an Aggie 7-2 run A&M had put together following a timeout.

Lady Ags lose fifth straight, 100-63

had 20 points. STAFF AND WIRE REPORTS

AUSTIN — The Texas A&M Women's Basketball Team (6-8, 0-4) continued its skid when the 16thranked Texas Longhorns defeated the Aggies 100-63 Wednesday night.

A&M was led by senior Melissa Rollerson and freshman Kerrie Patterson, who both finished with 16 points

Both A&M and Texas came tearing out of the gates. Texas shot 10-of-13 from the floor and the Aggies connected for 8-of-10. However, the Longhorn's pressure defense wore down the Lady Aggies, creating turnovers and easy baskets for Texas

While the Lady Ags cut down their turnovers from the Nebraska game, 18 compared to 39, Texas collected 14 steals and 10 blocks.

Texas forward Amie Smith lead all Longhorn scorers with 22 points and center Angela Jackson

The Lady Aggies ended the game 20-of-38 from the floor and scored only 19 points in the second half.

PUBLIC NOTICE CLASSROOM COMMUNICATION ENHANCEMENT

PROGRAM (CCEP)

PURPOSE:

The Classroom Communication Enhancement Program is designed as an integral part of efforts to continue to enhance Texas A&M University's tradition of excellence in undergraduate education. In any classroom setting occasional problems which impede communication between a professor and a student may arise. The Classroom Communication Enhancement Program provides an effective mechanism for solving such problems at the level where they occur and by the individuals of responsibility. Moreover, the procedures are designed to effect resolution in an expedient manner.

GENERAL INFORMATION ABOUT CCEP

A student who has a concern about classroom communication should first discuss the concern with the instructor of the class. If, despite discussion with the instructor, the issue is not resolved, the student then may bring the matter to the attention of the department head of the instructor's department. At that point, a form (Classroom Communication Concerns Form) is completed by the student. If the matter is so sensitive that discussion with the instructor is impossible, the student may report the concern to the department head; at that point the form mentioned will be filled out.

The Classroom Communication Enhancement Form describes later steps in the procedure.

Types of Problems Not Covered By CCEP

Sexual Harassment

Discrimination

Grade Appeals

Please refer to Texas A&M University Rules and Regulations for procedures concerning these problems.

Questions about the Classroom Communication Enhancement Program may be directed to your dean's office.

LOCKEDOUT. LOCKEDON. www.lockon.com 511 University Drive E., Suite 204 - 268-0571 visit us in the MSC main hallway

We are moving to a new facility, creating over 100 permanent part-time positions!

Universal Computer Systems, Inc. is expanding into a new facility that will allow us to create 100+ part-time permanent positions. The facility is conveniently located off of University next to Sidepockets at the corner of the shopping center. UCS currently has 180 part-time employees and 10 full-time employees in the College Station facility.

The new facility has allowed us to be more flexible with hours to accommodate your school schedule. A minimum of 15 hours a week is required, but there are more hours available for those who are interested.

NO COMPUTER EXPERIENCE REQUIRED! UCS provides full training and allows opportunity for full-time employment after graduation.

Stop by to fill out an application and to speak with UCS Representatives on : Monday, January 27th Rudder Room 304 2pm-7pm

If you are unable to apply in person, please contact our Recruiting Department at: 1-800-883-3031 http://www.ucs-systems.com
