David Schwimmer stars in new HBO satire 'Breast Men'

LOS ANGELES (AP) — HBO's "Breast Men," a satirical look at the rise and fall of the silicone breast implant, stars Chris Cooper, David Schwimmer ... and a supporting cast of many, many breasts.

We see them pre-op small and post-op large, on brazen display at society parties and strip joints, and, in darker moments, as disfigured symbols of America's obsession with bra size.

We even see them oddly disembodied. In a clever pseudo-documentary section of the movie, the camera records women's comments on their breasts, men and self-image while focusing only on the body part in question.

Despite the bountiful nudity, the film tends more toward the bemused than the salacious — which helped Cooper decide to play one of the fictionalized surgeons who develops the implant and watches it turn into a boom (then bust) industry.

He had to be sold on the project. "In my first reading, I had some strong reservations and actually put it aside for a week and a half," Cooper recalled. "I asked my wife, Marianne, to take a look at it and see what she thought. ... She's a pretty strong feminist, and I did want her take on it."

With Marianne Leone's thumbs-up, Cooper took on screenwriter John Stockwell's brittle tale of medicine, money and mammary glands. Costarring Matt Frewer, Louise Fletcher and Emily Procter, "Breast Men" debuts 9 p.m. EST Saturday.

The film opens in 1951, when a fictional resident Kevin (Schwimmer) looking for his creative energies and date. Peering into a bathroom window, he discovers a woman's silhouette to wads of tissue.

Inspiration hits. Instead of in the lingerie store, he goes to a plastic surgeon's office. Dr. William Larson (Fletcher), a surgery mentor at Baylor University, is unimpressed. His blatant disdain ("Theater of beauticians," sounds like Larson) and a high-maintenance wife drive him to action.
