SUNGLASSES

Continued from Page 3

Investing a little more time to your search for the perfect pair of sunglasses can allow you to find some shades with all the necessary qualities that also fit into your budget.

• Knowing Where to Go

Shoppers have many possibilities when it comes to where

to purchase their sunglasses. Besides drug stores and department stores, eye care professionals also sell sunwear.

The latter choice might be a good idea because opticians are available to help you select the right frames and lenses. The eye care staff is there to help you. Do not be afraid to ask questions.

If you already wear prescription eyeglasses, you can buy a pair of sunglasses with

the same prescription blocking contact also now available. Now that Spring is upon us, quality is essential to the students who have in the sun.

So remember when you set out that perfect pair. Sorry, the same rule to beer goggles.
