## Bringing VARIETY to the MPe

MSC Town Hall brings eclectic min of entertainment to Texas A&M

BY RILEY LAGRONE

ollege Station may be the home of Texas A&M University, but the size of the city sometimes prevents it from attracting the same caliber of entertainment as larger cities. Luckily, keeping Texas A&M students entertained has been the mission of MSC Town Hall for almost 50 years

As one of the four committees that originally made up the MSC, Town Hall has been bringing entertainment to A&M since the 1940s. This year, Town Hall is at its strongest. The committee has a record number 180 members and a new relationship with Reed Arena. It seems one of A&M's oldest organizations is gearing up for its most successful year to date.

Town Hall began its semester this past weekend with a retreat that allowed its members to become acquainted with each other.

Chosen by an application/interview process, the 103 new committee members are preparing for the coming year's activities, which include smaller events such as Coffeehouse and Play Anything, Say Anything as well as larger shows like the November 20 Faith Hill concert. Lise Bohn, a Town Hall co-chair and a senior Eng-

lish major, said the organization feels good about its increased size and is ready to expand its programs "We're really excited about all our new members,"

Bohn said. "We're ready to take on some new projects, and we feel like [now we can] represent a good crosssection of the University. In the past, Town Hall has organized concerts rang-

ing from Sonny and Cher to R.E.M. and has even had some famous committee members such as Lyle Lovett.

Vice-chairs are in charge of Town Hall's programming. They are responsible for booking acts, which includes contacting management and signing contracts. The bulk of the committee is divided into units, each led by a director. These smaller groups concentrate on designated areas of expertise and put in the legwork required to make an event happen. Town Hall also keeps a logbook in the Student Programs Office that committee members can use to offer suggestions for upcoming events.

Over the years, Town Hall has honed concert organization to a science. The committee has worked hard to develop positive relationships with concert promoters and other industry insiders.

Their efforts have seemingly paid off as Town Hall continues to book acts such as Harry Connick Jr. and George Strait that would otherwise overlook a small town like College Station.

Town Hall is also making an attempt to book other types of artists. "Club shows" feature acts such as Tori Amos and other performers considered to be nonmainstream.

The shows, which normally take place in Rudder Auditorium, have historically been some of Town Hall's most innovative and groundbreaking shows.

Although these concerts normally run smoothly, Christine Ogilvie, a Town Hall co-chair, said an event can sometimes become more complicated than expected. When Town Hall brought alternative act Cake to Rudder Auditorium, for example, the lead singer of

the band reportedly disappeared just before showtime. "Two girls saw him in Rudder and yelled 'Hey, you're the guy from Cake," Ogilvie said. "He just turned around and ran. It was funny.

Mark McDavid, a junior marketing major, sing MSC Town Hall's Open Mic in front of Rudder

Although Town Hall does bring in large acts ganization is just as interested in allowingst express themselves. Several Town Hall pro cluding Coffeehouse and Play Anything, thing, offer a forum for virtually any type tainment imaginable. Any talent, from firebagpipe players, is welcome and even encou

Melissa King, a Town Hall member and journalism major, said the committee welco dent participation and does everything possible: after she the local music scene

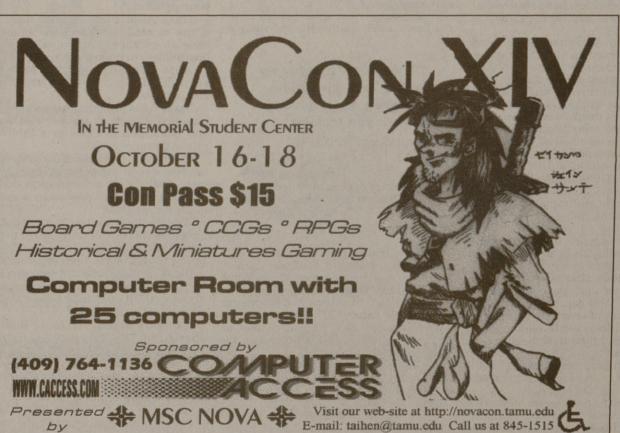

"Coffeehouse and Play Anything, Say Ar "Í can have two basic goals — to support local talen provide students with alternative forms of er ment," King said. "Personally, I'm sick of goil movies. These activities help both aspiring and ARCI bored students.

Although the acts that perform at Coffeeh primarily bands that come to the committee said anyone is welcome to visit Town Hall in dent Programs Office and get into the action

In addition, Play Anything, Say Anything vided specifically to let any member of the A& munity show off their unique skills. Instrume a soapbox are even provided.

'We were really excited about the soap box's Ogilvie said. "We wanted everyone to get speak their mind and then sign the box wh were finished.

Unfortunately, the box has collected only the natures so far. It should be noted, however, box still sits unused at all Play Anything, Say Amy sessions, and anyone wishing to speak their still welcome to step up.

## **Social Security**

Where do we go from here?

Come and share your views in an engaging discussion on social security and the proposed reform measures. Results from this forum will be presented in Washington D.C. in January at a national meeting.

Presented by Nathan Cray and Conor Seyle, NCHC members from Texas A&M. Over summer they won the National Social Security Challenge Championship. The prize w a \$100,000 grant to get college students engaged in the national debate on Social Security. They plan on holding these forums on campuses all over the country.
