Fish Camp '00

Counselor Applications Now Available in the Fish Camp Office!

Applications are DUE **Wednesday, February 2, 2000** by 12:00 NOON in the Fish Camp Office

Counselor Informationals are January 26 & 27, 2000, at 7:00 p.m. in Rudder 601.

Questions? Call 845-1627

Nominate someone special for Aggie Parents of the Year

Attend one of the following mandatory informational meetings

Monday, January 24
Tuesday, January 25
Wednesday, January 26
Monday, February 3

at 8:30 p.m., in Rudder 203

If you have any questions, please call
Lauren with Parents' Weekend Committee
at 845-3051

Department to test behavioral styles

BY BRADY CREEL
The Battalion

The idea that professors and students inevitably cannot understand one another is a notion the Texas A&M Department of Engineering refuses to accept.

As a new component of Engineering 112, "Principles of Engineering," almost 1,000 students will be required to take a 15-minute test this week which will be used to produce a 26-page computer-generated report about the student's behavior style.

"The more we learn about our students and what type of behavior creates a successful situation in this course, the better off we will be," Dr. Terry Kohutek, coordinator for ENGR 111 and 112, said.

The profile program used to create the report is called DISC, an acronym for the four basic behavioral styles — domineering, influencing, steadiness and conscientiousness.

"The objective is so people can understand themselves better behav-

iorally, so they can be more effective in what they want to do," Dr. Michael Abelson, facilitator of the behavioral profile study, said. "It is really more of a helping tool."

Abelson said there will be a workshop to train faculty members on how to effectively teach to different behavior styles.

"It will give the people who are hiring tremendous insight into what [the students] are like behaviorally," Abelson said. "It is a very effective way to communicate to the counselors those things that you are good at and what you need to work on."

During the fifth week of class, the students will receive formal in-class training on their behavioral profile.

Abelson said a focus of this training will be on how to work more effectively in teams.

"It will show them how they see themselves and how other people see them under stress," Abelson said. "People usually see themselves in one way, and other people see them differently."

"The more we learn about our students ... the better off we will be."

— Terry Kohutek
coordinator for ENGR 111, 112

Government denies firing shots at Davidian compound

WACO (AP) — Government lawyers on Tuesday formally denied that federal law enforcement agents or the U.S. military shot at the Branch Davidian compound at the end of the deadly April 1993 siege.

Their four-page federal court filing includes sworn statements by Defense Department and U.S. Treasury Department lawyers, *The Dallas Morning News* reported.

Treasury lawyers wrote on behalf of the federal Bureau of Alcohol, Tobacco and Firearms that no one under the agency's supervision or control shot at the sect's building on the last day of the 51-day standoff.

The Department of Defense, in a separate statement, said no one from the military or under its control fired that day "based on currently available information."

The response comes a week after lawyers for surviving Branch Davidians and their families, who have filed a wrongful-death lawsuit, complained to a federal judge in Waco about the government's re-

fusal to answer that key question.

The deadly standoff began Feb. 18 when federal agents raided the compound of Branch Davidian leader Jim Jones and his followers.

On April 19, 1993, Koresh and 80 others died in an inferno, some others from gunshots.

Government arson investigators said the Davidians set the blaze.

Plaintiffs' lawyers have alleged that one from the government fired from the building in the final hours of the siege.

In a federal court filing Jan. 18, plaintiffs' attorney Michael Caddell complained of a "clear gap" between the broad scope of plaintiffs' question and the "limited" government's lawyers provided acknowledgment that the military's Force was present during the siege.

Two Delta soldiers questioned in depositions swore they got no closer than a half kilometer from the compound.

Death row inmate dies at hospital

HUNTSVILLE, Texas (AP) — A death row inmate died Tuesday after suffering from Hodgkin's disease.

Nathaniel Barley, 35, recently had been taken to a prison hospital in Galveston.

He died at 12:30 p.m. of respiratory failure, prison spokesman Larry Fitzgerald said.

Barley had been on death row since March 1993 for murdering a Houston con-

venience store owner during an armed robbery.

Prison records show the first sorter approached Cong Duc Nguyen May 14, 1991, as he entered the store he owned, carrying a sack of rice.

Barley confronted Nguyen three times, took his money and a police officer arrested him after three days.

Barley's execution date had been set for Tuesday.

KRUEGER

Continued from Page 1

But Lacefield, along with the rest of the Krueger residents who had been evacuated, knew the alarms were not part of a drill when they saw the fire trucks and smoke coming out of a second floor window.

"When the fire department showed up, and there was smoke in the hallway, [the residents] realized it was the real thing," Dan Mizer, assistant director for dormitories administration, said.

Mizer said no damage was done to any of the facilities, and only a few articles of clothing in the hamper were destroyed.

"The hall staff did a great job, the students cooperated, and the College Station Fire Department and University personnel responded quickly," Mizer said.

Krueger Hall is not equipped with fire sprinklers, with the exception of the trash rooms.

"By code, sprinklers are not required in a building the size of Krueger," Mizer said. "But there have been some internal discussions about doing that [installing sprinklers] for quite some time."

Mizer said when he left Krueger Hall at 1:40 p.m., the smoke had dissipated and the rooms were deodorizing.

"I think the fact that there was no damage except for clothes is a testimony of how things went," Mizer said.

DOHERTY

Continued from Page 1

Kocurek said the firemen came to the building and reported that there was a fire, but they could not find the source of the fire.

Kocurek said he then contacted police radios announcing there was a fire in the Chemistry Building.

There was no damage to the building.

Ranier said people went to the building as soon as the tunnel was extinguished. Nothing was damaged as a result of the fire.

Campus Calendar

Wednesday

Agnostic and Atheistic Student Group: There will be a discussion of humanism in Rudder 707 at 8:15 p.m. Contact Jason Romero at 731-1126 for details.

Study Abroad Programs: There will be an informational meeting in 358 Bizzell Hall West at 11 a.m. about study abroad opportunities to the tropical island of Dominica. Graduate and undergraduate students can earn TAMU credit. Contact 845-0544 for details.

Omega Phi Alpha: There will be a general meeting in Rudder 404 at 8:30 p.m. Come see how you can help us help others. Contact Jana Hincin at 680-0001 or Kerri Reed at 693-6939 for details.

Campus Ministry International: If you're interested in meeting new people, experiencing awesome worship services and insightful bible studies, Campus Ministry is for you! (Free Food!!) There will be a meeting on Thursday, January 27, in Rudder 308.

Thursday

Agnostic and Atheistic Student Group: There will be a discussion of humanism in Rudder 707 at 8:15 p.m. Contact Jason Romero at 731-1126 for details.

Vasa: There will be a general meeting in Rudder 701 at 8:30 p.m. Contact Marie at 847-0686 for more information.

Omega Phi Alpha: There will be a general meeting in Rudder 404 at 8:30 p.m. Come see how you can help us help others. Contact Jana Hincin at 680-0001 or Kerri Reed at 693-6939 for details.

Study Abroad Programs: There will be an informational meeting in 358 Bizzell Hall West at 2 p.m. about study abroad opportunities to the tropical island of Dominica. Graduate and undergraduate students can earn TAMU credit. Contact 845-0544 for details.
