## Some Of The High Tech Tools You'll Work With At Smith & Associates.

At Smith & Associates while we take our business seriously we also work hard at having fun. It's this great environment where people can wear shorts, play Ping-Pong and Basketball that we believe enables ideas to run freely. This kind of thinking has enabled Smith & Associates to become one of the #1 ranked non-franchised distributor of semiconductors, electric components and peripherals and we're growing every day.

## COMPONENT SALES / PURCHASING

We currently have exceptional opportunities for Sales and purchasing professionals who are aggressive, interested in making money and love the challenge of the "deal". Candidates must be self motivated go-getter with excellent relationship building and negotiating skills, as well as possess a true, natural sales ability which is what it takes to be successful in this competitive industry. Proficiency in a second language is a plus.

On-campus interviews will be held Mon. Feb. 28 & Tues., March 7

### We offer great benefits including:

- Paid time off
- Free health club membership
- Casual dress code everyday
- Competitive salary and bonuses
- Matching 401(k) Program
- Full medical, dental and vision benefits
- And more!

**Mario Party 2**  
System: N64  
Genre: Party  
Developer: Hudson

It's time once again to break out the noisemakers and party hats. *Mario Party 2* is here to eat up hours of study time. The purpose of the game is to run your characters around a game board and collect as many stars as you can from Toad, the little mushroom-headed guy who can't quite pronounce the simple word, "Okay!" The person with the most stars is declared the "Superstar of MarioLand." To get the stars, you need coins. Coins can only be earned through mini-games or plain old luck. This game is fun on many levels. The simplicity of the game is appealing to some. Others enjoy the viciousness of head-to-head battle in the mini-games. Still others enjoy the fact they can play this game with their little brother in elementary school without feeling like they are playing a kid's game. Although not all of the mini-games appeal to everybody, almost every one can find some mini-games they really enjoy. One big improvement in this sequel is that it got rid of the minigame from the first one that required the analog controller over and over until it broke. Also, each game board has its own theme to add to the fun of the game. On the down side, you have to have at least three human players for the game to be fun. The computer controlled players are incompetent and challenging. Also, there is no such thing as a "short game." *Mario Party 2* sits down to play a game, he really loses a good 45-minute chunk of time. But if you have the time, it is worth getting friends together to play this game. (Grade: B+)
