## News in Brief

### Pump prices jump 6 cents in 2 weeks

LOS ANGELES (AP) — Gasoline rose 6 cents per gallon at the pump in the past two weeks, surpassing the all-time peak recorded in November 1990, industry analyst Tony Lundberg said Sunday. High crude oil prices and strong demand combined to drive up the national average price, including all grades and taxes, to \$1.4713 as of Friday. That was an increase of 6.08 cents from Feb. 11, according to the Lundberg Survey of 10,000 stations nationwide.

"The international oil community is speculating that key world oil producers may increase oil production in April, which would ease oil prices and therefore gasoline prices," Lundberg said. "But for now, gasoline prices will probably hover around their current levels or rise even further."

### Mystery slaying of Laotian immigrant

HURST, Texas (AP) — More than six weeks after the death of a Laotian immigrant who aspired to launch a singing career, police in this Fort Worth suburb are searching for answers in a case that has taken them into the world of Asian-American music and the serenity of a Buddhist temple. Kaysone Khounpanya, a 49-year-old grandmother, was suffering from a stab wound and cuts as she lay on the bedroom floor in her apartment last month, her hands tied behind her back. As she struggled to free herself, someone placed a pillow to the back of her head, shoved a handgun against it and fired once, authorities said.
