SATURDAY OCTOBER 23 3:48 PM

Midway through **THE DUMPING**, Mark realizes she can't expect him
 to play those crappy singer-songwriter cd's if they're "JUST FRIENDS."

Once past the shock, Mark may want to take the digital trip to MrSwap.com,

where he can unload the unsavory cd's he bought to make his ex happy —

and get some decent cd's, movies or games to kill his newfound free time.

MrSwap.com. So much more profitable than chucking them against the wall.

what are you done with?
