**M2M**  
*Shades of Purple*  
CD Courtesy of Atlantic Records

Just what the world needs, two more teens trying to sing.

Oh, wait, these girls are different because they are singing together. Note to record label executives: Please do not think that Britney and Christina should try to imitate M2M.

It just won't work, and neither does this album.

The group M2M gets its name from its two members, Marit and Marion (Ooh, what a clever name). M2M's CD consists of a bunch of wannabe bubble-gum pop, but does not even qualify for that genre.

Ever heard Jennifer Love Hewitt try to sing?

Don't ask how this reviewer came to hear it, but these two girls sound dismayingly close to Hewitt on her last album.

The album starts with a good song with a melody that almost sounds like half a dozen other popular songs.

However, by the fourth song, listeners

will wish that the "vocal talents" featured on this album had range — any range at all.

Every single note and word sound identical as the two vocalists lay on the sugary sweetness.

By the fifth song, it is obvious that these two girls have very little real musical talent and just landed a record deal because they were young and did not sound like a wailing cat.

There was a time in the music industry when only the best and the brightest landed recording contracts. Sadly, it now seems like anyone with a voice better than the sound of nails scratching down a blackboard can get a deal.

It is simply a waste of good plastic to release a CD like this to the public. (Grade: D)

**The Wilkinsons**  
*Here and Now*  
CD Courtesy of Giant Records

Most people who listen to country

music will remember The Wilkinsons' only major hit as the bitter-sweet melody "26 Cents."

Then there were a couple of easily forgettable tunes. Well, then, daughter and son trio is back with a new album that is basically sappy as sappy can be.

This album has to be the most of radio's Dr. Laura Schlessinger whose goal is to make America for the family again.

What a crock.

What country music listeners want to turn on the radio to hear is a song about getting drunk and a wife followed directly by a song like "Jimmy's Got a Girlfriend," that is so annoyingly sweet that one wants to gag?

There isn't a single song on the entire album that manages to come close to sounding like a decent country song. Everything sounds repetitive after a while. To add to injury, Amanda Wilkinsons' strong voice behind their initial success, is forced to split time with her brother, Tyler.

The album is not a total waste though.

When Amanda does sing, her voice is amazing and manages to make even the worst of songs something worth listening to.

If she were smart, she would have her dad and brother and embark on a solo career before it is too late, they drag her down with them further.

As for the brother and the son, please just stay at home and let the dad earn the money. (Grade: C)
