Teen-ager testifies in assault trial Green Bay Packer pleads innocent to charges

WAUKESHA, Wis. (AP) — The teen-ager accusing former Green Bay Packers star Mark Chmura of sexually assaulting her at a drunken post-prom party testified Monday she never had consensual sex with him.

"Never at any time," the 18-year-old woman told Waukesha County District Attorney Paul Bucher.

The teen-ager, who had baby-sat for Chmura's children, has accused Chmura of pulling her into the bathroom, pulling down her pants and having sex with her without her consent in a matter of seconds during the April 9 party at his friend Robert Gessert's home.

Chmura, 31, has pleaded innocent to third-degree sexual assault and child enticement, both felonies. He could face up to 40 years in prison and \$20,000 in fines.

Chmura's accuser said Monday she disliked Chmura because his comments about her made her uncomfortable.

"He would refer to me as jailbait. He asked me if my legs had gotten any longer since he seen me last," the teen said. "I took offense to that."

She said she disliked Chmura but did not hate him. Defense attorney

Gerald Boyle has said Chmura's accuser was lying about what happened and that she hated Chmura.

"I don't hate anyone, but he is about as close to hating someone as I will ever get," the teen-ager told jurors.

She also testified she did not know the football star would attend the party, but said she stayed because she had been drinking and had nowhere else to go.

"He would refer to me as jailbait. He asked me if my legs had gotten any longer since he seen me last."

— Chmura's accuser

Earlier Monday, a nurse who examined the teen-ager testified she believed the teen was sexually assaulted.

Debra Donovan, a registered nurse at Sinai Samaritan Medical Center in Milwaukee, talked to and examined Chmura's accuser within hours after the party.

"The findings are consistent with what she reported," Donovan said she concluded after a 1 1/2-hour examination. "I believe she was sexually assaulted."

Asked by Boyle whether she had ever written an examination report that did not support a sexual assault, Donovan responded, "No."

The teen-ager had no major injuries, which is not uncommon in sexual assault cases, Donovan said.

Donovan said the teen-ager, then 17, told her Chmura had oral sex with her, something Boyle said is not in subsequent police reports.

"I believe there was a miscommunication," Donovan said, referring to her records that show there was oral sex.

Bucher has said he expects to finish the state's case by Tuesday. Boyle said he expects his case to last until Friday.

Chmura remained impassive throughout Donovan's testimony. Two of his brothers, Matthew and Marshall, also were in court Monday, the fourth day of testimony in the case. Chmura, a three-time Pro Bowl selection, joined the Packers in 1992 and appeared in two Super Bowls with Green Bay.

Ravens see change in near future

TAMPA, Fla. (AP) — After a sleepless night, Brian Billick looking forward, not back.

"Of course we want to re-sign the Baltimore Ravens' coach Monday, less than 12 hours after team won the Super Bowl by beating the New York Giants, 34-7."

"But we have to recognize teams turn over and that all kinds of things can happen."

Prognostication is, indeed, possible these days — six different teams have been in the Super Bowl the last three seasons.

Next year's Ravens will be different. Billick said Monday as of now, Dilfer is the starting quarterback for next season.

"There are a lot of things we have to consider," Billick said.

Signing a relatively priced quarterback may not be the cap room to re-sign Jamie Sharper, who was overshadowed by Lewis on the Ravens' record-setting defense but was probably the most valuable player in the AFC championship game.

"We've finished with competitive part of the season. Now comes the business," Billick said.

The other factors include injuries, which have always been there. The schedule gets tougher.

There will be more night games. The Ravens didn't appear on Monday night this season.

Then there's the incentive of opponents. The Super Bowl has bullseyes on the eyes and complacency can sink in — players sometimes lose that slight edge that they have to their first championship.

"This year our level of expectation was to get to the playoffs," Billick said. "Next year, we'll set our own agenda. But we know that the bar now is pretty high."

Intel Corporation will be on campus
January 29th -- 31st

Intel Information Session
Monday, January 29th, 5:30PM - 6:30PM
110 Koldus Building

Engineering students are invited to attend and learn about exciting full-time and intern opportunities at Intel. Goodies and a raffle!

SEC Career Fair
Tuesday, January 30th, 10:00AM - 6:00PM
Memorial Student Center, 2nd Floor

Intel Open House (extended pre-screen)
Interviews

Wednesday, January 31st, 9:00AM - 4:00PM
110 Koldus Building

Business Casual attire is appropriate for all of our campus events!

We offer internships and full time positions in Washington, Oregon, New Mexico, Arizona, Massachusetts, Northern California and Colorado.

NOTEBOOK

Two Cyclone players recorded double digits in rebounds, with forward Tyray Pearson hauling in 12 and center Martin Rancik pulling down 10.

Rock and a Hard Place

A&M men's basketball coach Melvin Watkins has a plan for rebuilding the Texas A&M basketball program, but it has hit many bumps along the way. None of the bumps have been tougher than the ones hit this year.

Players like Andy Slocum and Thomas Ressa, who Watkins was counting on to provide minutes and contribute, have been plagued by injuries and have not been able to provide support this season.

Their loss has caused team members like freshman forward Nick Anderson to play out of position and be

brought along a lot quicker than Watkins had expected. Both of these factors have led to the inconsistency that has plagued the Aggies all season.

"We don't have the talent right now to compete night in and night out in the Big 12."

— Melvin Watkins coach

"I feel, as a coach, helpless," Watkins said. "There are things I want to do that we can't do right now. The kids just give us what they can. We don't have the talent right now to compete night in and night out in the Big 12."

Doug Fuentes is a senior journalism major.

There's a reason we're the #1 MCAT course.

Is it Kaplan's expert teachers? Convenient class schedules? Comprehensive review materials? Medical School Admissions advice? Every released AAMC MCAT plus thousands more practice questions? Could it be our online MCAT topical tests available 24 hours a day?

The answer: all of the above and more.

MCAT classes start February 5.

Last chance to prepare for the April exam. Call today to reserve your seat!

ESI - A WORLD OF OPPORTUNITIES

ESI Information Session

Texas A&M University
Tuesday, January 30 ••••• 7:00 pm - 8:00 pm
Room 102 - Zachary Building
Refreshments Served

Join a Worldwide Leader!

Electro Scientific Industries (ESI) is a worldwide leader in high-technology production equipment for the global electronics market. Our sophisticated products are used to make the parts inside PCs, TVs, VCRs, cell phones, pagers, and other consumer electronics. With over 1,400 employees located around the world, ESI has a reputation for innovative solutions and exceptional service. If you're interested in working with the latest technologies that drive the future of the electronics industry, look to ESI.

Be sure to attend our information session to learn more about ESI and the opportunities we have to offer. We look forward to seeing you there!
