Campus reflections

STUART VILLANUEVA • THE BATTALION

Reflected in a rain puddle at the MSC fountain area, Texas A&M students brave the inhospitable weather while trying to make it to class

on Tuesday. The first two days of class were plagued by afternoon thunderstorms and rain is forecast for the remainder of the week.

WILL YOU SURVIVE

THE INTERNSHIP JOB SEARCH?

When it comes to internships, the competition is tough! That's why you need more than just basic survival skills.

Come to the workshop on Internship Search Strategies and get an edge on the competition...

Your future starts here!

Gateway to lay off one-quarter of global work force

SAN DIEGO (AP) — Gateway, the nation's No. 4 manufacturer of personal computers, said Tuesday it is laying off about 5,000 employees — around one-quarter of its global work force — because of an increasingly bleak market.

Gateway posted a loss of \$20.8 million for the quarter ending June 30, compared with a profit of \$118 million for the same period a year ago.

The company said the layoffs will help it save \$300 million.

"As tough as these decisions were to make, we're doing all the right things to create a new company with a unique competitive edge and a healthy, profitable future," said Ted Waitt, chairman and chief executive.

"We're planning to win by building a lean,

nimble organization that is unified and focused on our customer base unlike any other time in our history."

Gateway has a work force of about 19,000. The announcement came after the market closed for the day. Gateway stock rose 3 percent \$8.86 in after-hours trading.

Murder possible in two California wildfire deaths

HOPLAND, Calif. (AP) — A man was charged with murder Tuesday in the deaths of two pilots whose firefighting planes collided over a blaze that may have broken out at an illegal drug lab in the woods.

Frank Brady, 50, of Redwood Valley was being held without bail after Mendocino County prosecutor Norm Vroman filed the charges.

A second man, Richard Mortenson, San Pablo was arrested on outstanding warrants for drug and weapons charges.

Evidence of a methamphetamine lab was discovered near the site where the planes collided Monday near Hopland, about 100 miles north of San Francisco, while dumping fire retardant on a 250-acre wildfire. Killed were retired pilot Larry Groff, 55, and Lars Strathairn.

The pilots were flying alone in the War-era Grumman S-2 planes when they clipped each other during a pass over the wildfire.

Fires also burned across parts of other states in the West, including Nevada, Washington and Wyoming.
