On May 28, Eminem released his new album entitled *The Eminem Show*. The talented artist has sold over 1.3 million copies in just over a week. On this newest effort, it seems as if he is not worried about topping the sales of his past albums, only improving the rhymes in his lyrics. Eminem expresses his insecurities and gives his listeners a sense of understanding his crazy life. Even though Eminem enjoys keeping his mystique, he is fearless in exposing his insecurities about his height, skin color and sanity. Eminem begins his album with the opening song "White America," which sums up the artist's feelings on how his skin color is the result of his renowned popularity and the reason his lyrics are scrutinized by critics. In the song, Eminem makes the statement, "I could be one of your kids," to refer to the reason critics denounce his lyrics. Eminem believes parents do not like his lyrics because it could be their children saying or feeling the same things he says.

about who Marshall Mathers really is. As one of the most controversial figures in hip-hop history, Eminem carries on his tough image in *The Eminem Show* by making countless threats against his family, along with others, that have made him an icon for his many admirers. As you listen to *The Eminem Show*, you can either love it or hate it, but without a doubt Eminem will not make any apologies for his lyrics. As Eminem says, "F---k it!"

On track 14, "Hailie's Song," the rapper experiments with his vocals by singing which adds a new twist to his album. In the song, Eminem expresses his fear of losing his daughter. By revealing his fears, Eminem exposes himself to his fans, which undoubtedly shows his maturity. In his album, the misunderstood rhyming guru refers to himself by his given name, Marshall Mathers. He feels as if his fans only know him as the rapper, Eminem, and that the fans are clueless

MTV, Hard Rock Hotel sued for TV show prank

LAS VEGAS (AP) — A Washington, D.C., couple is suing the Hard Rock Hotel and MTV, claiming invasion of privacy during a reality TV show prank. James and Laurie Ryan are suing the Las Vegas resort and the network for \$10 million over the TV series "Harassment." Their case was moved early this month from Superior Court in Los Angeles to federal court in Washington, D.C.

The lawsuit said the couple believed they were going to be spending a vacation at the hotel in January. Instead, the Ryans were given a room with hidden cameras that captured their shock as they discovered what appeared to be a mutilated corpse in the bathroom.

When they tried to leave the room, two actors posing as security guards forced them back inside until Ashton Kutcher, the show's host and co-producer, emerged to reveal the gag.

Kutcher has described the show in interviews as a "Guerrilla Candid Camera."

PEOPLE IN THE NEWS

The complaint alleged invasion of privacy, fraud and infliction of emotional distress. The Ryans' Washington, D.C., attorney, Dan Rozansky, expects the case to go to trial sometime next year.

Don Marrandino, Hard Rock's president, said Monday he hadn't seen a copy of the lawsuit. MTV representatives declined comment.

Woody Allen settles lawsuit with former producers

NEW YORK — A trial in which Woody Allen accused two former producers of cheating him out of \$12 million ended with a settlement of the filmmaker's lawsuit. Lawyers refused to reveal the settlement's terms, and at their request state Supreme Court Justice Ira Gammernan agreed to keep them confidential.

The settlement came on the trial's ninth day. Allen's

lawyer, Michael Zweig, issued a joint statement:

"The parties have reached business resolution of the dispute. The case is over"

Allen had sued producer Jean Doumanian and her business partner and boyfriend Jacqui Safra, saying they cheated him out of his share of profits on eight movies since 1993.

During the trial, Allen testified that it would once have been unthinkable to sue Doumanian, a friend for 20 years, but "it was too much money to just cavalierly walk away."

A defense lawyer said in opening statements that Doumanian had been a "therapist" who rescued Allen's movie career, and she testified that she considered Allen ungrateful. Safra said she backed Allen financially because they wanted to help a friend in need.

The dispute centered on Allen's contract for the first three movies with Doumanian and Safra. The agreement said money from the winners and losers was to be pooled to determine whether the film made a profit.
