STUDIES IN PROGRESS

FACIAL ACNE STUDY

Volunteers ages 12 and older needed to participate in a 12-week research study with an investigational topical medication for the treatment of facial acne. Eligible volunteers will receive at no cost:

- study related medical exams
- study related dermatological exams
- study medication

Volunteers will receive reimbursement for time and travel.

BACTERIAL VAGINOSIS STUDY

Female volunteers, ages 18 and older needed to participate in a clinical research study for the treatment of bacterial vaginosis. Symptoms include an odorless off-white vaginal discharge. Volunteers will receive free laboratory tests and medication and will be compensated for their time.

Call for more information.

IMPETIGO STUDY

Impetigo is an inflammatory skin disease usually caused by bacteria and appears as a yellow, crusty rash. If this sounds like you or someone you know, who is at least 18 months of age or older, you may qualify to participate in a clinical research trial that lasts for 15 days and requires 4 visits to the clinic. This study is testing an investigational medication applied to the skin. No blood tests required. Reimbursement for time and travel will be provided. Your participation may help treat your skin, and may help us understand more about this condition.

YEAST INFECTION

J&S Studies, Inc. is conducting a research study for women's Yeast Infection. If you are a woman, 18years of age or older and have a yeast infection that has not been treated with any over-the-counter medication within 14 days, you may want to get more information regarding this investigational research study. Qualifying participants will receive the following benefits at no cost during the study:

- study-related medicine
- physical exam
- pap smear (if not done within 12 months)
- up to \$120.00 for participation
