# Scandal-ridden Baylor names McCaw new AD

By Lisa Falkenberg THE ASSOCIATED PRESS

WACO — Ian McCaw was med athletic director at vlor on Monday and immediely envisioned a new identity a school that's been rocked a sad, scandal-filled summer.

McCaw, who is leaving the ne job at Massachusetts, lieves Baylor can go beyond Texas Baptist roots and come a destination for otestants and ristians nationwide who are bable of excelling in athletics d academics.

He said Baylor's financial pport and reputation should al that of Notre Dame among atholics and Brigham Young nong Mormons. "We want young men and

omen to grow up dreaming of ming to Baylor University and mpeting niversity," McCaw said.

McCaw's immediate goal Il be bringing peace and stality to a program still trying to cover from the death of basetball player Patrick Dennehy, resignations of basketball ach Dave Bliss and AD Tom Stanton and the discovery of rious rules violations.

The football program is in ad shape, too, and critics have id Baylor should bow out of e Big 12 Conference. It is the ague's only private school.

"I'm going to be focused on moving us forward," McCaw aid. "I'm not going to spend a lot of time worrying about the history and worrying about the past. I'm going to worry about as quickly as we possiblyan."

McCaw was hired factly one month after Stante and Bliss resigned. Scott Drew already has been hiredfrom Valparaiso to replace Bli, but several of the team's top ayers have transferred.

Violations ranging from scholarship payments to porly handled drug tests alread have been revealed in Bliss' preram. An internal investigative ommittee has yet to file full report, then the NCAAwill weigh in, possibly with eavy sanctions.

66 Baylor represets a pinnacle, personl and professiona position for me.

> - Ian McCw new BaylorD

Former Baylor Carlton Dotson has been ilicted on a murder charg in

Dennehy's death.
While McCaw said he besn't plan to be part of the instigations into past problem he will work to avoid future nes by implementing a song NCAA compliance proam with checks and balances.

Baylor president Robert ban said McCaw is a "proven leær," and was the only candate offered the job after a natnal search that included 60 name

McCaw is known for wk-

advancing this athletic pgram ing at a "ferocious pace," and is often called "the brightest guy in college athletic administration," said David Brooks, who had been acting AD and will now return to his job as vice president for finance and administration.

A private school, Baylor does not release contract details. Brooks, however, said McCaw signed to stay at Baylor for the 'long haul," not just to pick up the pieces from the previous

McCaw, who starts in about two weeks, said Baylor's tarnished reputation had no effect on his decision.

He's been eyeing the school for a while because it fit his dream-job profile: a faith-based school with strong academics that was a member of a powerful Division I-A conference.

"Baylor represents a pinnacle, personal and professional posi-tion," said McCaw, who took over UMass in July 2002 after five years as AD at Northeastern. He's also been interim AD at Tulane after starting in college administration at Maine.

"I enjoy challenge," he said. In fulfilling his vision to raise Baylor's profile to the likes of Notre Dame and BYU, McCaw said he'll rely on his strong marketing background to create a new athletic identity for Baylor. Aiming for students across the nation and internationally would be a change, too.

"I just don't think we've really focused on it as much and I think now we've got the level of coaches and the level of athletic director that really view the national role for Baylor,"

### Texans still basking in win Team now looks for first-ver win streak

By Mark Babineck THE ASSOCIATED PRESS

HOUSTON — Starting the season with a speccular upset victory is getting old-hat for the secnd-year Texans. Instead, they're focused on actuly winning two games in a row for the first time. 'The challenge will be to see how much we've

atured as a football team, bach Dom Capers said Monday s the Texans basked in their 21shocker at heavily favored

Miami. "There were phases of ir football team that played extremely well after a win last ear, but we didn't play well and ut it all together as a team." The Texans, the only expan-

on team to start the season 1-0

its first two seasons, had four chances to build a inning streak last year. They lost each time, by a mbined score of 99-35. Houston gets its fifth chance to string together

CAPERS

vo victories when they make the short trip east to ew Orleans on Sunday. There the Saints will eek their first victory after a 27-10 loss at Seattle. Capers' task will be to get his Texans, still not sed to success, prepared to finally have a winning

"It's hard for me to believe that we were ever overconfident football team last year," Capers aid. "We just weren't consistent enough. One of our points of emphasis coming into this season as we wanted to be a smarter, more physical, ore consistent football team. I think we made some strides (Sunday) in those areas.

Though no one's quite ready to predict the exans will play a home game Feb. 1 when the

layers had each other. With bubbling per-

onalities that rival one another, Krambeer d Smith immediately forged a friend-

"From day one she has made me feel so omfortable," Krambeer said. "When I'm

rustrated, she's frustrated, and we help each

ther out. We're both willing to do anything

Now, as friends off the field and team-

ates on the field, Krambeer and Smith

ook to the future. If the beginning of the

2003 season is any indication, the Aggie

th barrels loaded," Guerrieri said.

ont line will see successes never before

With Kat Krambeer and Smith, we have

With the amount of success the Aggies

ossible to help the other succeed."

Continued from page 1B

Super Bowcomes to Houston, there were several signals theare vastly improved from 2002.

-Davi Carr didn't get sacked — and hardly was even thered — after setting an NFL record by going own 76 times last season and facing 2002 sackting Jason Taylor. Quick drops, coupled with a offensive line retooled with three new starters, di the trick.

—Housn managed not to fumble or throw an interceptio, a feat the Texans did not accomplish during a gne all last season.

The exans maintained their steady defense from last yar, when they ranked 16th in the NFL. Virtually le same starting cast returned from 2002, thouh there's not much depth behind them so playmaers like cornerbacks Marcus Coleman and AaronGlenn need to stay healthy

-Offesive coordinator Chris Palmer balanced his ttack with 34 rushes and 32 passes for a team-reord 393 yards. New running back Stacey Mck gained 89 tough yards despite an lverage of 3.3 per carry, opening up passing lanes.

-With a little protection, a real-live running ame and a new weapon in No. 3 overall draft doice Ardre Johnson, Carr got to show why he was the top pick in 2002 by going 17-of-31 for 26 yardsand a touchdown. "All we heard was how Jason Taylor was going

to abuse us. They were going to get all those saks," Carr said. "The guys up front took that as a hallenge and stepped up in a big way.'

Now the challenge will be to prevent what happeed after last year's season-opening 19-10 upset of he Cowboys, which was a five-game losing

If you look at the work ethic and caliber of plan that we have, then you should know that anying is possible with us," defensive tackle

#### SPORTS IN BRIEF

### Big Tua equals big FO ratings

NEW YOK (AP) - Bill Parcells' deut as coach of the Dals Cowboys earned Forits highest overnight NL rating ever, while CBS'ppening-day ratings were up 14 per-

Atlana's 2-13 win over the Covboy, the 4 p.m. EDT gime in Fox, drew a 15.2 rating with a 30 share, the network's highestpro fotball rating ever and he highest overnigt raing for any accustomed to, that's no small statement. Fox shw this summer.

The previous NFL high on Fox was on the opening weekend last year, when a 4 p.m. game featuring the St. Louis Rams at Denver drew a 15.1 and a 30 share.

The rating is the percentage of all homes with TVs, whether or not they are in use. The share is the percentage of homes with sets in use. Overnight ratings meas-

markets in the United States, covering nearly 70 percent of the country. Each overnight rating point represents about 735,000 TV homes.
