would've made a difference, we won a game or not," Franchione said. "But I believe that they will make a difference. I came to build a program and that's one way to build a program. (Opponents) need to get their licks in while they can."

If momentum is what Franchione is hoping to build for the future, wins over Missouri and rival Texas to finish the season would be a great place to start.

"I don't take any loss as good," Franchione said. "I am a poor loser. I always will be, as when I quit being (a poor loser) I'll quit (coaching). I do want to be around anyone as different."

Cy Young

Continued from page 5

difference for me," said Halladay, who has the most wins in the major leagues over the past two seasons.

The 26-year-old right-hander had never won more than one game in a season when he went 0-2 with a 9.23 ERA during spring training in 2001. Then when Toronto sent him to Class A Dunedin.

Queen had Halladay change his delivery.

"I went from pretty much straight over the top to three-quarters, which basically gave me more movement to both sides of the plate," Halladay said.

Dorfman, who has worked with four-time Cy Young winner Greg Maddux, got Halladay's focus, to "block everything out, be positive and go one pitch at a time," the pitcher said.

Halladay made it back to the Blue Jays on July 1 and went 3-3 in the second half. In his breakout year, he was 19-7 with a 2.93 ERA in 2002.

This year he finished 22-3 with a 3.25 ERA, going unbeaten from May 1 to July 27 and tying for the AL lead with 16 complete games.

Qualifying you to specialize in Podiatric Medicine

You're considering a career in medicine but want to do something a little different. Consider the exciting field of podiatric medicine. Whether managing your own practice or working in a hospital or clinic, as a podiatric physician you will be able to diagnose, treat, and prevent diseases,

disorders, and injuries to the foot and ankle. Barry University is one of only two podiatry programs nationwide affiliated with a comprehensive university. So, you benefit from extensive research facilities, our unique hospital and medical center affiliations, and excellent opportunities

for residency programs and externships from coast-to-coast. Visit us online at www.barry.edu/podiatriac to learn more about how we can help you succeed in a career in podiatric medicine.
