A&M officials have the same goal of keeping journalism in the curriculum.

Journalism classes must continue to be provided for all students who were admitted to A&M last fall until the last of them graduate, said Dr. Edward Walraven, undergraduate adviser for journalism at A&M.

Walraven said although new students will not be able to receive a major in journalism, that Dean of Liberal Arts Charles Johnson said he hopes to offer a new minor in journalism as early as next fall.

Walraven said Blinn's decision to cancel journalism classes was most likely a business decision made because of the uncertainty over A&M's department.

'Blinn has benefited from having journalism courses because so many people are interested in the field, Walraven said. "I'm sure that Blinn would love to be able to have a couple of journalism

classes so that students that want to transfer to A&M could take those.

A&M may also propose a new interdisciplinary major to begin in two or three years, Walraven said. If approved, students will be able to receive a degree in journalism in the

"Any program at any university that teaches students how to be critical thinkers in a modern society is a very valuable contribution to society," Walraven said. "That's one of the primary benefits that journalism contributes to society."

Johnson said no faculty jobs will be eliminated as a result of the decision to cancel the journalism department at A&M. However, if faculty members choose to seek jobs at other universities or choose to retire they will not be replaced.

"I think there is a certain sense of disappointment," Walraven said. "Most of us are interested in what we teach, but I think we're all pretty encouraged that there is a possibility of having a degree in journalism in the future.

Prof

Unterberger said the first black student who attended her class in 1969 became very close to her.

"He came to see me in tears one day saying that on his dormitory room was a big sign that said 'N---- Go Home!," Unterberger said. "I took him under my wing. I tried to have students understand one another. The only thing that makes us different is our backgrounds, experience and differences in cultures.

McClure, who was stuck in a snow storm in Washington, D.C., spoke to the audience via phone.

"I had the honor and privilege of being student body president in 1976 and 1977," McClure said. "There were only 100 to 150 black students at Texas A&M."

McClure said that at A&M he only encountered overt racism once.

"I hope that we are closer to Dr. King's dream than we were 30 ears ago," McClure said. "One of the ways we truly grow is if we surround ourselves with those whose views, status in life or
