

Monique Rochon

As the Class of 2006, we have been here for nearly two years. We have a pretty good idea of what's going on at A&M and how to get around college life. We're familiar with the traditions, the spirit, and the odd sense of cultishness that comes with being an Aggie. Next year, as upperclassmen, we will demonstrate some form of leadership for the classes under us. Will we provide a strong model or a weak example? My desire is to provide a strong model, and I believe the best way is to have a keen presence felt on campus. To do this, we need to have a greater sense of unity – unity between our class and our officers, and unity among ourselves, as well. The more opportunities we as the Class of 2006 have to get involved, the more we're going to feel like this is our University. And the more we feel like this is our university, the keener our presence will be felt. As upperclassmen, let's provide a strong, unified model. Class of 2006, it's time for a fresh perspective.
