## Fender bender

SHARON AESCHBACH • THE BATTALION

Sophomore business major Cody Jones watches as his 1998 Dodge Dakota is towed away after an accident off Southwest Parkway. Jones made a left turn onto Southwest Parkway heading in the southwest

direction (toward Texas Avenue) near Wendy's when he struck an oncoming car in the right lane, causing the truck to flip. Jones and his passenger left the scene without injury.

## Life sciences

Continued from page 1

exciting future development of these programs."

Gates said no tuition or fees will be used to fund the construction of the new building, and it will be financed entirely through the Available University Fund, the revenue stream from the Permanent University Fund.

The Available University Fund consists of earnings from the Permanent University Fund set aside by the state of Texas for use by A&M and the University of Texas, and is not related to the University's annual state appropriations

either, Miller said.

As chair of the Campus Master Plan Study Committee, Miller and others attempted to identify the area of campus that would be appropriate for housing this new facility.

One of the proposed locations for the life sciences building is the lot north of Simpson Field and next to All Faith's Chapel. Locations on West Campus are also being considered, Miller said.

The most recent research building completed on the A&M campus is the nearly completed Chemical Engineering Building, which is located west of the Zachry Building on the edge of campus.

**FREE CHIPS AND SMALL DRINK WITH ANY SUB**

110 College Main @ Northgate
